Your safety is important to us.

Dealveel is an online technology marketplace where Buyers and Sellers can connect directly.

Although we work to maintain a trusted platform, Dealveel does not verify ownership, legal documents or the authenticity of every listing.

For this reason, every User should take appropriate precautions before entering into any transaction.

Safety Tips for Buyers

1. Verify Ownership

Before making any decision, verify that the Seller has the legal right to sell or advertise the property or item.

Request relevant ownership documents wherever appropriate.

2. Visit the Property Personally

Always inspect the property yourself before making any payment.

Do not rely only on:

Where appropriate, independently verify:

- ownership documents;
- legal title;

Do not:

- pay token money;
- transfer advance payments;
- send deposits;

without completing appropriate verification.

If someone pressures you to make immediate payment, proceed with extreme caution.

6. Meet in Safe Locations

Whenever possible:

- meet during daylight hours;
 - meet at the property itself or another safe public location;
 - inform a trusted person before attending meetings.
-

7. Keep Records

Maintain copies of:

- agreements;

- payment receipts;
- communications;
- property documents.

These records may be useful if disputes arise.
